CHINECHEREM CHUKWU

ENTRY-LEVEL SOFTWARE ENGINEER

Port Harcourt, Nigeria | chinecheremchukwu15@gmail.com | +234 9060461720
LinkedIn: https://www.linkedin.com/in/necherem-chukwu/ | GitHub: https://github.com/Abigail56

PROFESSIONAL SUMMARY

Entry-Level Software Engineer with foundational skills in React, Next.js, TypeScript, Python, and FastAPI. Experienced in developing responsive user interfaces, building backend APIs, and working with relational databases through hands-on projects and technical training. Passionate about building secure, maintainable software solutions that solve real-world problems and eager to contribute to a collaborative development team.

TECHNICAL SKILL

Programming Languages: Python, JavaScript, TypeScript, SQL
Frontend Development: React, Next.js, HTML, Tailwind CSS, DaisyUI, Responsive Web Design
Backend Development: Python, FastAPI, RESTful API Development, Pydantic, SQLModel
Databases: PostgreSQL, Relational Database Design, SQL Queries
Authentication and Security: JWT Authentication, Argon2 Password Hashing, Role-Based Access Control (RBAC)
Tools and Technologies: Git, GitHub, Visual Studio Code, Linux, Docker, Docker Compose
Testing and Database Migrations: Pytest, Alembic
Software Engineering Practices: Component-Based Development, API Integration, Debugging, Version Control, Collaborative Development

PROJECT

Route Bridge Logistics — Multi-Tenant Logistics Platform

Developing a platform where multiple merchants can register their shops, manage their businesses, and serve customers through a unified system. The platform connects merchants, customers, and delivery riders to streamline the shopping and delivery process, from order placement to successful delivery. It is designed to support coordinated order management, delivery assignments, and delivery status tracking.

Technologies: Next.js, React, TypeScript, Tailwind CSS, Python, FastAPI, SQLModel, PostgreSQL, Docker.

- Developing responsive user interfaces to support different platform user roles.
- Building backend APIs with Python and FastAPI and working with PostgreSQL for relational data management.
- Implementing role-based access control to manage permissions for different user roles.
- Organising application components and backend services using a modular development approach.
- Exploring delivery lifecycle management, order verification, notifications, and delivery status tracking.

VoxPlay — Social Gaming Platform

Developing a social gaming platform designed to bring players together through interactive multiplayer games. Its first game, Brain Clash, focuses on timed challenges, trivia, riddles, word games, and friendly competition.

- Designing an interactive gaming experience with a focus on responsive interfaces and player engagement.
- Planning multiplayer game modes that support voice- and text-based interaction.
- Structuring the platform to accommodate multiple game modes and future features.

TECHNICAL TRAINING AND DEVELOPMENT

Africa Plan Foundation (APF) — Software Engineering Trainee (Ongoing)

- Developing practical software engineering skills through structured technical learning and hands-on projects.
- Building knowledge of frontend development with React, Next.js, TypeScript, and modern CSS frameworks.
- Learning backend development with Python, FastAPI, relational databases, and RESTful APIs.
- Practicing collaborative software development, version control, debugging, and project-based implementation.
- Developing an understanding of authentication, database design, testing, containerization, and software deployment.

PROFESSIONAL EXPERIENCE

National Youth Service Corps (NYSC) — Mathematics Teacher & Head of Corps Members

Akwa Ibom, Nigeria | November 2022 – November 2023

- Delivered structured Mathematics lessons to support students' understanding of key concepts and improve their problem-solving skills.
- Coordinated activities with fellow corps members, demonstrating teamwork, communication, and organizational skills.
- Served in a leadership capacity as Head of Corps Members, supporting coordination and collaboration among team members.

Astroy Construction Company — Site Management

Imo State, Nigeria | May 2019 – December 2021

- Supported construction project coordination, building design reviews, and preparation of Bills of Quantities (BOQs).
- Assisted with project planning and technical documentation, applying problem-solving and attention to detail.
- Collaborated with colleagues to address project challenges and support the achievement of project objectives.
- Completed assigned tasks accurately and efficiently while contributing to team productivity.

EDUCATION

Enugu State University of Science and Technology (ESUT)

Bachelor’s Degree in Building Technology | 2016–2021

LANGUAGE

English — Proficient
Igbo — Native
